Roofs Walls, Driveways, Around sheds Spot Spraying in Lawns

Gardens, Paths, Rockeries, Tiled Algae, Lichen, Liverwort, Moss,

GENERAL INSTRUCTIONS: HomeSafe Weed Terminator N Concentrate controls many common annual and perennial broad leaf weeds and grasses. The active ingredient is the naturally occurring compound nonanoic acid found in many plants including geraniums and pelargonium oil. Also contains limonene (10-30%) a naturally occurring oil derived from citrus fruit peel

HomeSafe Weed Terminator N works by quickly dehydrating the plant. Results are seen as browning and wilting, usually within a couple of hours of application. To be effective. HomeSafe Weed Terminator N must come into contact with the green parts of the plant.

MIXING INSTRUCTIONS: Fill the spray tank with clean water and start agitation. Add the required amount of HomeSafe Weed Terminator N Concentrate to the spray tank and mix thoroughly before commencing spray application.

APPLICATION: HomeSafe Weed Terminator N is a non-selective contact herbicide. Spray to ensure complete coverage of unwanted plants. Optimal results are achieved when HomeSafe Weed Terminator is applied in full sun to small, actively growing plants.

The use of a cone nozzle to achieve even spray distribution is recommended. Wash out spray equipment thoroughly after use with soapy water. This substance must not be applied in an agricultural setting or in a wide dispersive manner. STORAGE AND DISPOSAL: Store in the closed, original container in a cool, dry place out of the reach of children. Do not store in direct sunlight. Do not re-use
