# HomeSafe™ WEED TERMINATOR PLUS READY TO USE

**RESTRAINTS:** DO NOT APPLY if rain is expected within 2 hours. DO NOT spray if weeds are wet. DO NOT use around food or feed crops. This substance must not be applied in an agricultural setting or in a wide dispersive manner.

**PRECAUTIONS:** DO NOT allow spray to contact or drift onto plants you do not want killed. DO NOT spray directly on humans, pets, exposed food, food preparation areas or food utensils. DO NOT allow chemical containers or spray to get into drains, sewers, streams or ponds.

## SHAKE WELL BEFORE USE

Situation	Weeds Controlled	How to Apply
Gardens, Paths, Driveways, around Sheds Spot Spraying in Lawns and Turf	<b>Annual weeds:</b> Broadleaf weeds (e.g Blackberry nightshade, Capeweed, Burr medic), Creeping oxalis, Milk Thistle, Spear thistle, Wireweed, Pigweed, Fat Hen, Shepherd's Purse. <b>Perennial weeds*:</b> Broadleaf weeds (e.g Flatweed, Hair hawkbit, Lamb's tongue, Dandelion, Evening primrose), Couch grass, Paspalum, Volunteer Wheat Perennial ryegrass, and Kikuyu	Spray to completely cover the weed surface. This product may damage lawn and turf when used as a spot spray. *Perennial weed species may require repeated applications to obtain long-term control.
Gardens, paths, rockeries, tiled roofs, walls, driveways, around sheds, spot spraying in lawns & turf.	Algae, Lichen, Liverwort, Moss	Spray to completely cover plant surface. For drives or heavy infestations, clean off by brushing after 3 days and reapply if necessary.

**GENERAL INSTRUCTIONS:** HomeSafe Weed Terminator Plus Ready-To-Use is a herbicide that controls many common annual and perennial broad leaf weeds and grasses. The active ingredients acetic and nonanoic acid, are naturally occurring compounds. Acetic acid is found in vinegar and nonanoic acid is found in many plants including geraniums and pelargonium oil. Also contains limonene (<10%) a naturally occurring oil derived from citrus fruit peel. HomeSafe Weed Terminator Plus Ready-To-Use spray mixture works by quickly dehydrating the plant. Results are seen as browning and wilting, usually within a couple of hours of application. To be effective, HomeSafe Weed Terminator Plus Ready-To-Use spray mixture must come into contact with the green parts of the plant. HomeSafe Weed Terminator Plus Ready-To-Use is a non-selective contact herbicide. Spray to ensure complete coverage of unwanted plants. Optimal results are achieved when HomeSafe Weed Terminator Plus Ready-To-Use spray mixture is applied in full sun to small, actively growing plants.

**STORAGE & DISPOSAL:** Store in a closed, original container in a cool, dry place out of the reach of children

and pets. Do not store in direct sunlight. Do not re-use empty container. If possible please triple rinse empty bottle and then recycle at approved recycling facility. If recycling is not possible, dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.

**SAFETY DIRECTIONS:** Will irritate the eyes and skin. Repeated exposure may cause allergic disorders. When using the product, wear rubber gloves and safety glasses. Wash hands after use. Wash goggles and gloves after use.

**FIRST AID:** If poisoning occurs, contact a doctor or Poisons Information Centre. Phone New Zealand 0800 764 766. If in eyes wash out immediately with water. Approved pursuant to the HSN0 Act 1996, Approval Code HSR101465. See [www.epa.govt.nz](http://www.epa.govt.nz) for approval controls.

### HAZARD CLASSIFICATION:

6.5B, 6.9B (inhalation), 9.1B

The substance should not be applied on agricultural crops or for wide dispersive use in order to reduce the risk of environmental exposure.

Not to be used for any purpose or in any manner contrary to this label unless authorised.
