CONCENTRATE

HomeSafe™
weed TERMINATOR Plus
READY TO USE

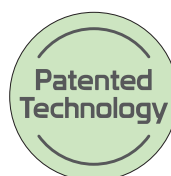

Combining cutting-edge technology and scientific research with natural ingredients, Contact Organics delivers a breakthrough in effective environmentally friendly weed control. The HomeSafe™ Weed Terminator is a powerful bioherbicide formulated for high performance. Used internationally, around home and gardens, by municipality, schools, landscapers and a mix of others.

How it works

The HomeSafe™ Weed Terminator is a non-selective bioherbicide for control of annual and perennial weeds. It is suited for use in most situations requiring weed control.

HomeSafe™ Weed Terminator N Concentrate is based on nonanoic acid made bio-available through proprietary delivery technology.

Acetic acid has been added to the HomeSafe™ Weed Terminator Plus to further enhance performance.

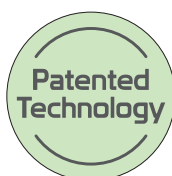

HomeSafe™ Weed Terminator Difference

- ✓ Break-through innovation in weed management
- ✓ High performance broad-spectrum bioherbicide made from natural ingredients
- ✓ Non-selective control of many annual and perennial broadleaf weeds and grasses through desiccation
- ✓ Rapid action & suppressing regrowth
- ✓ Environmentally sustainable
- ✓ Non-toxic to humans, pets & the environment
- ✓ Free of glyphosate & other toxic substances
- ✓ Fully biodegradable and non-residual
- ✓ In-line with regenerative farming practices & beneficial to soil health
