

LocalSafe™

weed **TERMINATOR N**

CONCENTRATE

Combining cutting-edge technology and scientific research with natural ingredients, Contact Organics delivers a breakthrough in effective environmentally friendly weed control.

The LocalSafe™ Weed Terminator N is a powerful bioherbicide formulated for high performance.

Used internationally, by municipality, schools, landscapers, bush care groups, vineyards, orchards and a mix of others. Approved for non-agricultural use.

How it works

The LocalSafe™ Weed Terminator N is a non-selective bioherbicide made from nonanoic acid for the control of annual and perennial weeds. It is suited for use in most situations requiring weed control.

LocalSafe™ Weed Terminator N Difference

- ✓ Break-through innovation in weed management
- ✓ High performance broad-spectrum bioherbicide made from natural ingredients
- ✓ Non-selective control of many annual and perennial broadleaf weeds and grasses through desiccation
- ✓ Rapid action & suppressing regrowth
- ✓ Environmentally sustainable
- ✓ Non-toxic to humans, pets & the environment
- ✓ Free of glyphosate & other toxic substances
- ✓ Fully biodegradable and non-residual
- ✓ In-line with regenerative farming practices & beneficial to soil health
- ✓ Suitable for use on glyphosate resistant weeds
- ✓ Suitable for all public and private space
- ✓ Cost competitive
